<tbody>
<tr>
<td>From the main menu, click the Browser option to search for a reservation.</td>
</tr>
</tbody>
</table>
The browser window will display on the filter tab, allowing you the opportunity to enter search criteria to find the reservation you need. Note: There are many ways to search to find the reservation you need. In this guide, we will search by group name, which is one method. Keep in mind that search criteria can be entered in any of the fields on the filter tab to find the reservation you need.

In the 'Browse For' field at the top, select Reservations.

In the Group field, click the drop down to select the desired group. Once all search criteria has been entered, click ‘Get Data’ in the bottom right corner of the screen to view the results of your search.

On the Results tab, click once in the row for the reservation that you need to edit and click ‘Open’ at the bottom of the screen to open the Navigator window and make any necessary changes.
When the Navigator window opens to allow for editing, make sure you are viewing the reservation summary tab so that you can view the reservation level information (who/what) as well as the associated bookings in the lower pane.

To cancel a single booking:

Begin by clicking once on the booking row in the lower pane of the navigator window and click ‘Edit’.

On the edit screen, click the Status drop-down and select ‘Cancelled’.

A Cancel Status dialog box will display for you to indicate why the booking was cancelled and by whom (The ‘Reason’ and ‘Who Cancelled’ fields are required). Click ‘OK’ to be returned to the edit screen.

Click ‘OK’ at the bottom of the edit screen to continue the cancellation process.

Another dialog box will display to be sure that you want to cancel. Click ‘OK’.
The edit screen will close and the Navigator window will now display the updated booking information with a black box to indicate the cancelled booking. To send an email communication of this cancellation, click on the cancelled row once to highlight, and then click ‘Confirmation’ in the lower pane.

Now that you have updated the booking status, you will need to communicate that status to the end user. To do this, you will click the ‘Confirmation’ button.

If you are communicating regarding one individual booking, click once to highlight that booking and click ‘Confirmation’ in the lower pane to the right of the bookings. To send an email regarding the status of multiple bookings, use the Confirmation button in the upper pane.

No matter which confirmation button you click, the wizard looks the same. The following steps walk you through each tab. For information on how to save some of this information for use over and over, see the quick guide, “Specifying Confirmation Settings and Memorizing Confirmation Reports”.

The Date Range tab will display the date range for the bookings associated with the event in your spaces.
On the buildings tab, make sure that the building for this reservation is listed on the right in the Selected Buildings box. If not, click once on the building name on the left in the Available Buildings column to highlight it. Then click the single arrow in the center to move it to the right.

On the Statuses tab, make sure that the ‘Confirmed’ status is listed on the right under ‘Selected Statuses’.

NOTE: The Categories tab is not covered in this guide as only a small sub-section of Space Managers uses it.
The Options tab is where you select any information you want displayed on the printable report that is attached to the email you send. Make sure the Confirmation Title matches the status of the booking you are emailing about – in this case, Cancelled. In the header and footer message drop-down fields, select the appropriate header and/or footer message for your area that matches the booking status. Select any of the checkboxes that provide information to be printed on the attached file.

Click ‘Print Preview’ in the bottom right corner to see what the file will look like. Use the ‘Print’ button to print a copy for your files if necessary, and adjust the number of copies to print using the field to the left.

The Email Options tab is where you select the information that will display in the body of the email you send. Be sure that ‘Attach Detailed Confirmation’ is checked so that the requestor can print a copy for their records if desired.

Once all information has been populated, click ‘Email’ at the bottom of the screen to generate the email preview.
Use this screen to make a final review of the email, and edit as necessary. Make sure the subject line reflects ‘Cancellation’. Click ‘Send’ in the bottom right corner to send the cancellation email.

To cancel multiple bookings:

In the lower pane of the window, click ‘Tools’ and select ‘Wizards’.

On the Wizards dialog box, select ‘Change Booking Status’ and click ‘Next’ in the bottom right corner.
From the Status drop down, select ‘Cancelled’. Leave the ‘Update Reservation Status’ box unchecked as you are only cancelling individual bookings. This is in the event that a reservation has multiple bookings in multiple locations, so that you don’t cancel the bookings in spaces you don’t manage, as you can’t see those.

Once status is selected, the Reason, Who Cancelled, & Notes fields display. Complete these fields & click ‘Next’ in the bottom right of the screen.

The next screen displays the list of bookings to which this change will apply. If you are applying this to all bookings listed, click ‘Select All’ and then ‘Finish’. If you are only applying the change to a portion of bookings, hold the Ctrl key and click on each row to highlight. Then click ‘Finish’. The change booking status wizard screen will display the updated status and the results of the change. Click ‘Close’ at the bottom right of this screen to return to the Navigator window.
The bookings are now updated with the black boxes to reflect their cancelled status.

If you need to prepare a cancellation email, click ‘Confirmation’ in the upper pane and following the instructions on pages 4-6.

To delete cancelled bookings, hold down the Ctrl button and click on each cancelled booking you want to delete. Note that bookings must be in a cancelled status before they can be deleted.

Once highlighted, click the Delete button to the right of the bookings list.

A pop-up box will ask to be sure you want to delete the selected bookings. Click OK.

You will be returned to the Navigator window, and the bookings you deleted will be gone. If you haven’t already, send the cancellation email to requestor.
